Creating Reports

Reports

On the Reports page you will find at least two top-level tabs; Local, and Utah. Under the Local tab you will find at least three tabs; Reports, Report Templates, and Published Reports.

Locally created reports, ones that you and/or your library have created/ modified, are contained within the Local / Reports tab.

Report templates, shared with all users in your organization, are contained within the Report Templates tab. Use these to create your own custom Report based on the settings defined in the Template.

The Published Reports tab contains URL(s) to Report(s) previously published. Each Published Report has a unique URL that is a “perma-link” to the report outputs that are easily shared with others. Access to published reports does not require a secure login, enabling you to easily share your results (the URL) with a wider audience, e.g., via email or posting on a Web site.

The green navigation bar includes links to Library Trend and Ranking Reports.

Library Trend

- Trend reports highlight the longitudinal results for the selected data and periods. The Library Trend report shows a summary of the data for the selected periods and includes a percentage difference (gap) between results in consecutive periods.

Ranking Report

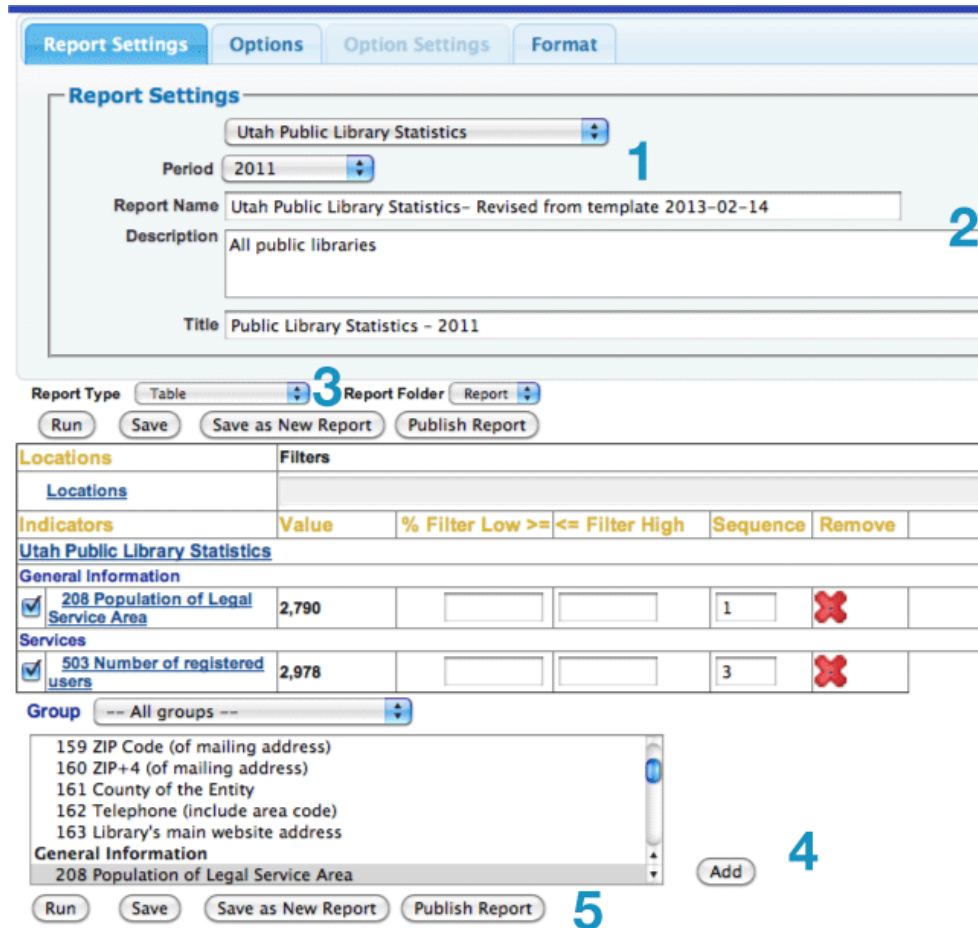

- Ranking Reports summarize the results for your organization and/or location versus other organizations/locations. The Ranking Report includes Minimum, Maximum, and Average values for all reporting institutions/locations for ease of comparing your results.

Managing Reports

The Report Management Screen is an on-line filing cabinet with folder tabs for organizing reports. By default, you have access to the folders as shown above. With sufficient permissions, Reports can be created using the “Add Report” link or by selecting an existing Report (or Report Template) and then saving as a New Report.

To create a new report, click on the "Add Report" link. This opens the "Report Settings" screen where you can define the Collections (i.e., survey results), Periods (i.e., data sets), Performance Indicators (PIs), and other settings for each report.

1. Select the Collection and the Period(s) from the dropdown menu.
2. Name and Describe your report.
3. Select the Report Type. Save as a New Report to create a new instance of the report to modify and run.
4. Select the Performance Indicators to include in the report and then Add them.
5. Save, Run, and optionally Publish your report.

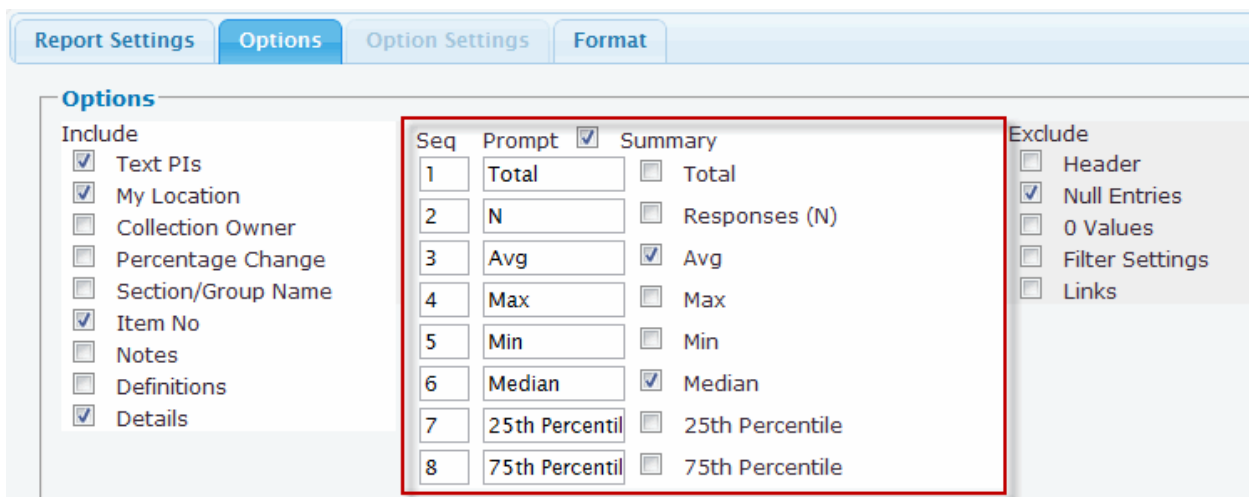

Counting Opinions (SQUIRE) Ltd.

To expedite the selection of specific PIs to include in the Report, you can specify a Group/Section name from the available list. Select one or more PIs (click the PI name to highlight) then click "Add". You can also multi-select PIs by holding down the control key (or command key for Apple users) when selecting PIs.

You can also add PIs from more than one Collection. To do so, simply select a different Collection from the available list and then Add additional PIs as appropriate.

Report Options

The Options tab reveals the various settings that are available (see below)

Seq	Prompt	Summary
1	Total	<input type="checkbox"/> Total
2	N	<input type="checkbox"/> Responses (N)
3	Avg	<input checked="" type="checkbox"/> Avg
4	Max	<input type="checkbox"/> Max
5	Min	<input type="checkbox"/> Min
6	Median	<input checked="" type="checkbox"/> Median
7	25th Percentil	<input type="checkbox"/> 25th Percentile
8	75th Percentil	<input type="checkbox"/> 75th Percentile

The various report Options enable settings for what should be included/excluded from the results. Use the Option settings to include/exclude details, summary data (e.g., Mean, Median, Maximum, Minimum, Total, and Number of Respondents), Notes, Definitions, Null Entries, 0 Values, and more.

Creating Reports

Results Filtering

Indicators	Value	% Filter Low	>=	<= Filter High	Sequence	Remove
Utah Public Library Statistics						
Identification						
<input checked="" type="checkbox"/> 161 County of the Entity	IRON				4	
General Information						
<input checked="" type="checkbox"/> 208 Population of Legal Service Area	2,790		2000	5000	1	
Circulation						
<input checked="" type="checkbox"/> 550 Total Circulation	34,925		10%		5	

Any PI added to a Report can be used for filtering results. Percentages (%), Minimum, and/or Maximum values can be defined. Filter settings ensure that only those locations matching the defined filter criteria are included in the results. The "% Filter Low >=" field can also be used to set a percentage range filter. By setting the Filter Low value to 15% for example, the system filters results based on locations within +/- 10% of the data values for your location. You can also filter text results (e.g., Library name, City, etc.). Click your cursor while hovering over the associated filter field to get to a pop-up window enabling you to select the values matching your filter criteria. Remember to click Update when you are done.

Locations Filter

The screenshot shows a 'Locations Filter' pop-up window. At the top, there are tabs for 'Locations' and 'Filters'. The 'Locations' tab is active, showing a list of locations with checkboxes. The 'Filters' tab is also visible, showing a table with columns for 'Indicators', 'Value', '% Filter Low', '>=', '<= Filter High', 'Sequence', and 'Remove'. The 'Locations' list includes:

- ☐ Utah State Library Division
 - ☒ American Fork City Library
 - ☒ Beaver Public Library
 - ☐ Box Elder County Bookmobile Library
 - ☒ Brigham City Library
 - ☐ Cache County Bookmobile Library
 - ☐ Carbon County Bookmobile Library
 - ☒ Cedar City Public Library
 - ☐ Confederated Tribes of the Goshute Reservation
 - ☐ Daggett County Bookmobile Library
- ☐ Davis County Library
 - ☐ Kaysville City Library

Selecting the Locations Filter triggers a pop-up window with all locations. Location filters can be saved and reused across your collections.

Creating Reports

Report Types

LibPAS features many different Report Types, providing you with different views of the results. Most tabular report types feature graph icons linked to pop-up graphs for the selected results and downloadable Excel files enabling you to explore the results off-line.

Table Report

Utah Public Library Statistics

Survey: **Utah Public Library Statistics** Period: **2011, Start 2010-07** Months: **12**

Locations (16)	208 Population of Legal Service Area	550 Total Circulation	503 Number of registered users	600 Total Number of Library Programs
Beaver Public Library	3,112	17,189	1,665	98
Delta City Library	3,436	38,218	3,282	61
Garland Public Library	2,400	35,286	912	77
Helper City Library	2,201	12,150	1,295	73
Juab County Bookmobile Library	4,869	32,922	1,547	0
Kanab City Library	4,312	55,711	3,510	34
Kane County Bookmobile Library	2,844	15,685	1,045	4
Manti City Library	3,276	29,067	1,552	94
Monroe Public Library	2,256	11,643	1,239	38
Mount Pleasant Public Library	3,260	81,224	2,193	175
				
Total	50,418	508,771	28,766	880
Avg	3,151	31,798	1,798	55

Table Reports provide a view of the data by location for a selected period. The report features interactive column sorting, pagination options, graph icons (to pop-up charts/graphs) and an Excel download link. Results for your location are highlighted (displayed using a different color) in the tabular and graph outputs, for ease of comparison.

Option settings include: summary data (Average, Median, Maximum, Minimum, Total, and Number of Respondents), notes, group names, definitions, etc.; or the exclusion of: Null Entries, 0 Values, Header, etc.

Tips

- Display more libraries: Increase the number of displayed rows at the bottom of the report.
- Sorting: Click on the arrow at the top of any column to sort libraries.
- Printing: For larger print-outs adjust your "Page Setup" i.e. "legal" or "landscape" or download the results into Excel and further adjust the format.
- Bar graphs: To enlarge a bar graph click on "Expand" icon toward bottom right of

Creating Reports

PI Report

PI Reports summarize the results for the selected PIs (performance indicators) and Period. By default, the output includes the Average (mean), Total, Variances, and Quartiles for the selected PI(s) (see the example below). Use the Options tab to change the Summary settings, including the sequence and prompts used, as required.

550 Total Circulation		
1	Rich County Bookmobile Library	3,864
2	Monroe Public Library	11,643
3	Helper City Library	12,150
4	Kane County Bookmobile Library	15,685
5	Beaver Public Library	17,189
6	Wayne County Bookmobile Library	18,320
7	Salina Public Library	27,938
8	Manti City Library	29,067
9	Juab County Bookmobile Library	32,922
10	Parowan Public Library	34,925
11	Garland Public Library	35,286
12	Delta City Library	38,218
13	President Millard Fillmore Library	42,460
14	Richmond Public Library	52,169
15	Kanab City Library	55,711
16	Mount Pleasant Public Library	81,224
Total		508,771
Avg		31,798
Max		81,224
Min		3,864
Median		30,995
Lower Quartile - 25%		38,218
Upper Quartile - 75%		17,189
Variance - 25% above average		39,748
Variance - 25% below average		23,849

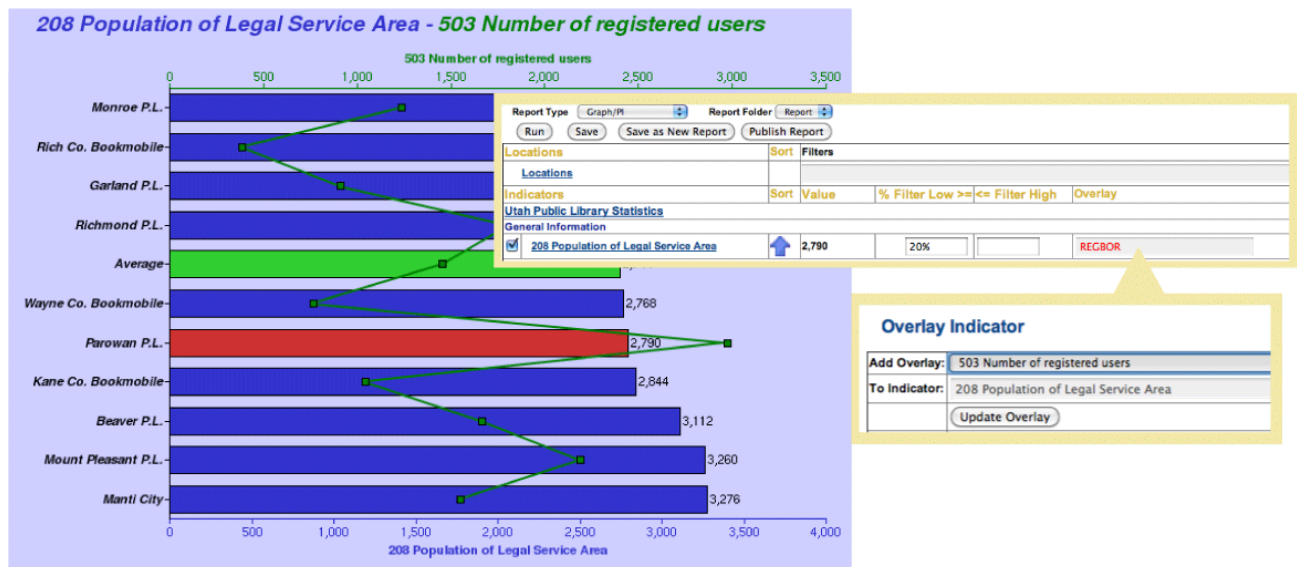

Creating Reports

Graph/PI

The Graph/PI report type provides a setting for an "Overlay" that can be displayed on each generated bar graph. The overlay results appear as a line superimposed on the generated bar graph, with the scale for the overlay along the top axis, and the scale for the bar graph along the bottom. This "cross-tabulation" can help to convey the relationship between values of two PIs. To create an overlay, simply click in the appropriate Overlay field to get to the pop-up screen where you can select the desired PI to overlay.

Creating Reports

Summary Report

Survey: **Utah Public Library Statistics** Period **2011**

Name	Total	Avg	Max	Min	Median
208 Population of Legal Service Area	27,441	2,744	3,276	2,256	2,779
550 Total Circulation	299,372	29,937	81,224	3,864	23,694
503 Number of registered users	14,549	1,455	2,978	388	1,396
600 Total Number of Library Programs	640	64	175	4	59

Summary reports display a summary of all selected locations for the chosen PIs and period. Data is shown for the PI Total, Minimum, Maximum, Average, and Median.

Summary Graphs

Summary Graph reports present an overall picture of the selected PI(s) for a given period. There is a marker for Minimum, Maximum, and Median values. The red marker in the middle represents where 50% of the results fall. See below.

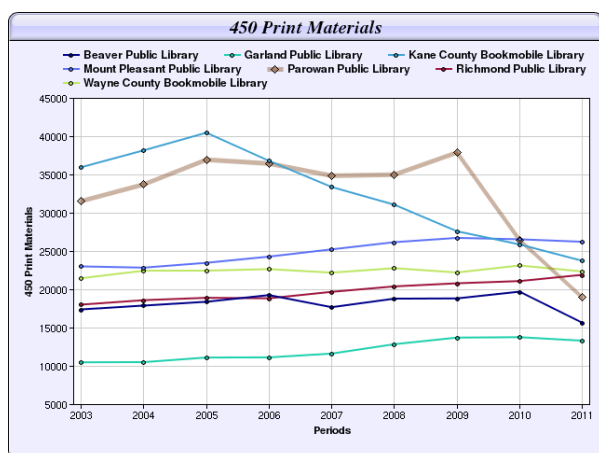

Creating Reports

Trend/PI

450 Print Materials	2003	2004	2005	2006	2007	2008	2009	2010	2011

The Trend/PI report displays the data for the chosen PIs over the selected periods. This report also features a click only graph of the data.

1-9 Locations the pop-up appears as a line graph.

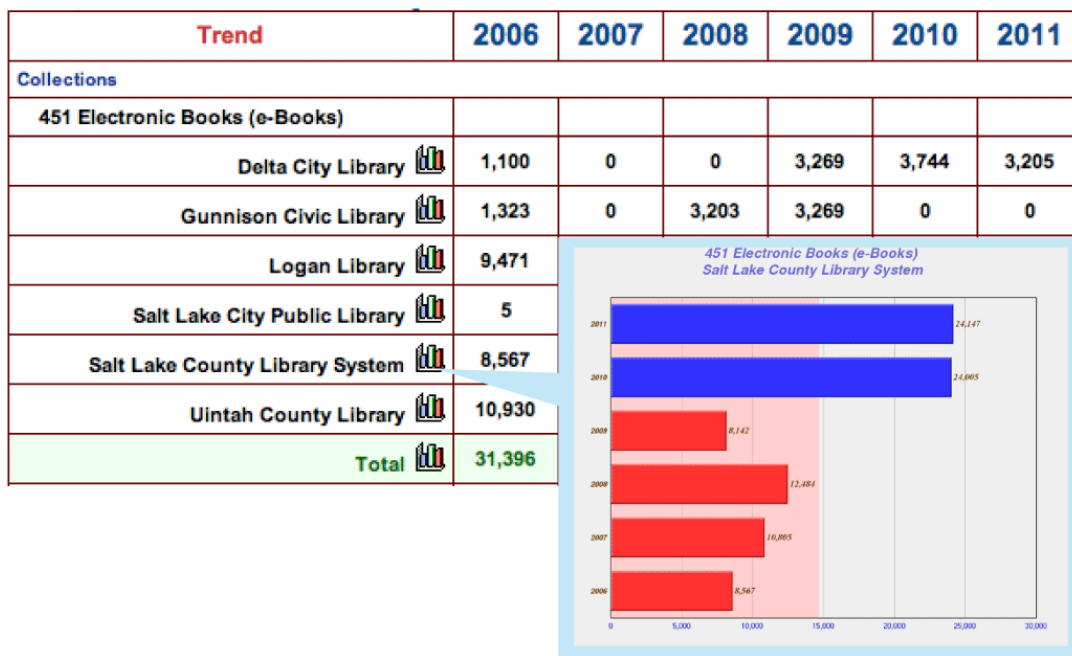

10+ Locations the pop-up appears as a distribution

graph

Creating Reports

Trend Reports

Trend reports enable comparison of results over multiple periods. The reports feature pop-up graphs (graph icon), as per the example shown below. You can include as many time periods as are available. Trend reports support various Options including: details and summary data such as the Number of Respondents (N), the Average (mean), Minimum, Maximum, Median, and Total values. In the example Trend graph (below) the pale red shading in the background represents the average. Above average results are shown by the blue bars, while below average results are shown in red.

Tips

Include "Details" to display the Trend Report with location details, as shown above. Use Filters before running this report to narrow the results.

total		706	742	6,980	3,746

Period comparison reports compare results for two selected periods. This Report Type shows Values for each Period and the Gap (difference). Various Graph icons exist for generating graphs displaying the results of each period and or the differences between each period, including Plus/Minus and Comparative bar charts.

Creating Reports

PI Gap

The PI Gap Report is useful in comparing two data elements. The paired ordering of PIs in the report output is determined by their Sequence value in the Report settings screen. The PI Gap Report features downloadable Excel results, and click-only icons to pop-up graphs.

Locations – 10	251 Total FTE of Librarians vs 253 Total FTE of Paid Staff			550 Total Circulation vs 551 Circulation of Children's Materials

Column Total	19 30.6	21 33.9	14 22.6	2 3.2	6 9.7	62 100
Note: First values in each table cell are actual location counts. Blue numbers in each cell are percentages(%) of row values in that cell. Green numbers in each cell are percentages(%) of column values in that cell. Links enable drill-down to specific details for selected entries.						

A Cross Tab Report compares a range of results for one PI versus another. You can generate several cross tab tables in one report. Each selected PI in the report is compared against the first PI (defined by Sequence.) The Cross Tab Report provides counts and percentage values of row and column totals in each cell of the report. Cross Tab Reports also feature links, from the counts, that enable a drill-down to a listing of the corresponding locations and their values for the PIs in the Cross Tab Report.

1. Create a report, set the Report Type to Cross Tab.
2. Setup Group breakouts for the Cross Tab Report – click on the Group link to set the groups you would like to use to breakout the data.
3. The Load Options feature can be used to update the Section/Group names and values or copy-and-paste to reuse the list in other PI (performance indicator) Groupings.

Creating Reports

Custom Format

Custom Format Reports provide you with more customizable options including the ability to style the output using Cascading Style Sheets (CSS.) Custom reports also provide a unique URL link that can be inserted into any merge document; thus providing users with a way to integrate results directly into custom formatted documents (e.g. Word, Excel, etc.). Each time the document is opened, the most recent data can be fetched from LibPAS. This feature is very handy for auto-creation of standard Monthly, Quarterly, and Annual reports that typically include several Custom Reports throughout the Document.

All reports can be published and shared with others by sending via email, text message, twitter or posting on a Web site or blog. You can also use the QR-Code feature to post links to reports in print materials. Users are not required to login to see the results and can use all the interactive features supported in the reports (e.g., downloads, pop-up graphs, drill-downs)
